

THE CLOUDIFIER

A 3-STEP SAFE & STRESSLESS SAP TRANSFORMATION

With the Cloudifier, T-Systems offers all service components that a company needs for a successful switch to the cloud in complete packages – in a predictable, standardized, cost-efficient, simple and secure manner.

THE CLOUDIFICATION PROCESS IS MADE UP OF THREE PHASES – DESIGN, TRANSFORM AND OPERATE:

DESIGN

TRANSFORM

OPERATE

FROM THE POTENTIAL ANALYSIS TO THE TARGET ARCHITECTURE

- Analyzing the IT infrastructure
- Cloud maturity check
- T-shirt sizes for a fixed price
- Defining the desired IT architecture

SOLUTIONS FOR A TROUBLE-FREE SHIFT TO THE CLOUD

- IT transformation on the basis of cloud readiness
- Systems and applications of any size and type
- Industrialized procedure ensures security
- No in-house know-how needed
- Fixed price in T-shirt sizes for each IT transformation

FOR SECURE OPERATION OF APPLICATIONS IN THE CLOUD

- Guaranteed quality thanks to Zero Outage
- Globally consistent process standards
- Pro-active risk management
- High availability in German data centers
- For greater freedom: special right of termination
